PROFESSIONAL SUMMARY

Full-stack Software Developer with experience building high-performance web applications using Node.js, Express.js, React.js, Laravel, and MongoDB/MySQL. Skilled in RESTful API development, scalable backend architecture, responsive UI design, and secure authentication mechanisms (JWT). Strong foundation in modern frameworks including Tailwind CSS, Redux Toolkit, and Bootstrap. Proven ability to deliver end-to-end solutions, optimize performance, and create efficient, user-focused applications.

WORK EXPERIENCE

Software Developer- Delta IT Networks Pvt (AUG 2023-PRESENT)

- Built responsive, high-performance web applications, collaborating with designer.
- Developed and maintained RESTful APIs using Node.js, Express, Laravel, and MySQL, optimizing server-side logic and improving API response efficiency. Designed efficient database schemas, optimized queries, and ensured smooth front-end integration.
- Designed optimized MySQL and MongoDB schemas, improved query performance, and ensured seamless integration between front-end and backend services.
- Developed responsive, cross-platform UIs using React.js, Redux Toolkit, Tailwind CSS, and Bootstrap, enhancing user experience across modern devices.
- Orchestrated VPS deployments, managed version control through Git/GitHub, and executed thorough API testing using Postman to ensure reliability before production releases.
- Implemented secure authentication and authorization mechanisms using JWT, session-based auth, and role-based access control to strengthen application security.

EDUCATION

YEAR	EDUCATION	INSTITUTION	%
2020-22	Master in Computer Application	Gurugram University	72.23%
2017-20	Bachelor of Computer Application	Dronacharya Govt College	71.04%
2016-17	12th Grade (CBSE)	Sheetla Vidya Peeth Sr Sec School	75.04%
2014-15	10th Grade (CBSE)	H.M Sr Sec School	77.25%

TECHNICAL SKILLS

Frontend Development: HTML, CSS, JavaScript, React JS, Bootstrap, Tailwind CSS, Redux Toolkit.
Backend Development: Node.js, Express.js, PHP, Laravel, Electon.js
Database Management: MongoDB, MySQL
Tools and Platform: Git, GitHub, Postman
Additional Skill: Ubuntu CLI, Docker, VPS Server.
Certification: Full Stack Web Development – Udemy (April 25, 2023)

INTEREST

- Keep on acquiring knowledge of new programming languages, frameworks, and development tools.
- Enthusiastic about building side projects to enhance technical expertise.
- Active learner, staying updated with latest trends in web development and software engineering.

PROJECTS

Food Delivery Website: https://github.com/Rahul4863/food_delivery_website.git

- Built a complete food delivery platform with **separate dashboards** for customers, delivery partners, restaurants, and admin.
- Integrated **Razor pay** for secure online payments.
- Implemented **real-time order tracking** using Socket.io and Google Maps API.
- Developed a modern, responsive UI using Tailwind CSS.
- Added secure **JWT-based authentication** and role-based access control.

AI-Powered YouTube Clone:

- Created a full-stack **YouTube-like platform** with video uploads, thumbnail generation, and adaptive video playback. Added **AI-based video title and tag suggestions** using OpenAI API.
- Developed user features including playlists, subscriptions, comments, and community posts.
- Implemented **creator dashboard** with analytics and revenue models (ads + subscription).
- Added Shorts-style vertical video feed.

School Management System: https://github.com/Rahul4863/sms.git

- Developed a multi-role school management platform for **students, teachers, and school owners**.
- Implemented **JWT authentication**, access control, and secure API routing.
- Built fast, scalable backend using Node.js and Express.js.
- Designed responsive UI and efficient MongoDB schemas for large data handling.
